- Prime Minister Hon. Dr. Terrence Drew.

ST.KITTS & NEVIS

A GLOBAL LEADER IN ECONOMIC CITIZENSHIP

How a tiny caribbean nation created a billion dollar industry?

A BIZARRE HISTORY FROM SUGAR TO PASSPORTS

The Twin island federation of St Kitts and Nevis being one of the smallest countries in the world in terms of land mass and population of just 55,000 residents has a truly bizarre history.

T

The Federation of Kitts and Nevis established itself as a Global leader in Economic Citizenship by investment (CBI) which is worth over \$10 billion annually. The CBI concept invented by SKN later spilled over to Caribbean and Europe.

The introduction of sugar cultivation to St Kitts in the 1640s and its subsequent rapid growth led to the development of the plantation economy which depended on the labour of imported enslaved Africans. During this time the planters grew prosperous and even rich, where Nevis became the richest British colony in the western hemisphere by 1652. By 1776, St. Kitts was the richest British colony per capita. In the 1990s St. Kitts and Nevis derives more than a third of its merchandise export earnings from sugar. In 2006, the Sugar industry collapsed, with rising crime rates St Kitts was in deep trouble. The country was looking for alternate source of income through citizenship sales for investment. It was only after 2010, the CIP has reached mainstream popularity among international investors after visa waiver agreement signed with Schengen states in June 2009.

In 1984, the Federation of St. Kitts and Nevis established the World's First Citizenship by Investment Programme, after just one year of independence. As the oldest (running since 39 years) and most established of its kind globally, the scheme offers citizenship to reputable individuals and their families through a robust and efficient due diligence process. This makes the program robust and well respected programs in the world.

At its peak, in one year alone, St. Kitts amassed \$470 million from CBI, accounting for 25% of its GDP. CBI is vital for the prosperity of SKN and has made a significant contribution to the local economy, with St. Kitts and Nevis achieving the fourth highest GDP per capita in the Caribbean according to IMF. St. Kitts and Nevis slashed its "debt from 164 per cent of GDP in 2010 to 104 per cent of GDP at the end of 2013 from citizenship revenues. The Sugar Industry Diversification Foundation (SIDF or the Foundation) was established on September 15, 2006 as one of the approved investment options for CBI. Its primary purpose was to assist the government to transition from sugar as the main industry to a more diversified economy by researching and funding the development of alternative industries.

In 1984, the Federation of St. Kitts and Nevis established the World's First Citizenship by Investment Programme, after just one year of independence. As the oldest (running since 37 years) and most established of its kind globally, the scheme offers citizenship to reputable individuals and their families through a robust and efficient due diligence process. This makes the program robust and well respected programs in the world.

The Federation of Kitts and Nevis established itself as a Global leader in Economic Citizenship by investment (CBI) which is worth over \$10 billion annually. The CBI concept invented by SKN later spilled over to Caribbean and Europe. When the CIP was introduced back in 1984 the minimum investment for SIDF remained at \$250,000, it was not until 2017 price cuts became effective when Hurricane Maria swept Caribbean countries. Fearing devastation and the need to raise more revenues to repair damage, hurricane hit islands cut citizenship prices, reducing the minimum investment to \$150,000 (from \$250k) making it more affordable. In 2021, Limited time offer for USD 125,000 launched and scrapped in Jul 27 2023.

ST KITTS AND NEVIS

When Christopher Columbus first spotted this island in 1493 and he named it “Saint Christopher”

The first English colonists kept the English translation of this name, and dubbed it St. Christopher's Island. In the 17th century, a common nickname for Christopher was Kit(t); hence, the island came to be informally referred to as Saint Kitt's Island, later further shortened to Saint Kitts

As years passed on, the name got trimmed to “Saint Kitts” and again to “St Kitts” and then again finally to “SKN” referring to St Kitts and Nevis.

Today the Constitution refers to the state as both Saint Kitts and Nevis and Saint Christopher and Nevis, but the former is the one most commonly used, however the latter is generally used for diplomatic relations. You will notice both names Saint Christopher (St Kitts) printed in the passport.
